SUMMARY

Product Designer building AI-powered healthcare products, including data dashboards, browser extensions and workflow tools. Takes products end to end, from strategy and research to prototyping and interaction design, with a background in visual, motion and 3D design.

EXPERIENCE

Product Designer, Neurodiscovery.ai

Mar 2026 – Present

- Own end-to-end design of AI-powered neurology products for US and global healthcare clients, including Savannah, and in-house platforms, from product strategy to shipped UI.
- Designed 10+ data dashboards (visualizations, filters and reporting views) that turn complex neurology datasets into actionable insights, helping clinical teams reach decisions faster.
- Designed AI browser extensions that embed AI into clinicians' existing workflows and reduce manual steps.
- Prototype end-to-end workflows to test product ideas with stakeholders before development, working with PMs and engineers to prioritize and ship.

Graphic Designer, ZöTok AI

Feb 2025 – Mar 2026

- Redesigned the ZöTok marketing website and designed new websites and landing pages for 20+ client brands, including Crocodile and Khas Mukas, using UX research and A/B testing to improve conversion.
- Designed and iterated on Meta and Google Ads creatives through performance testing, improving ad performance.
- Led UI/UX and brand consistency across ads, web and social, working with the video and marketing teams. Named Employee of the Month (2025).

Graphic Designer, KAIROS Technologies Pvt. Ltd.

Aug 2024 – Nov 2024

- Designed UI, graphics and motion content for digital products and marketing, working with cross-functional teams.

Motion Graphics Intern, JNAFAU

Apr 2024 – Jul 2024

- Designed and animated motion graphics for academic and creative projects.

SKILLS

Product Design: Product Strategy, End-to-End Product Design, Interaction Design, Information Architecture, User Flows, Wireframing, Prototyping, Design Systems, Responsive Design

Research & Data: User Research, Competitive Analysis, Heuristic Evaluation, Usability Testing, Journey Mapping, A/B Testing, Product Analytics, Data Visualization, Dashboard Design

AI: AI/LLM UX, AI Workflow Integration, AI-Assisted Prototyping, Prompt Design, Claude Code, Codex, Cursor, Antigravity, Figma Make, Google Stitch, Lovable, Bolt

Design Tools: Figma, Figma Motion, FigJam, Framer, Rive, Miro, Photoshop, Illustrator, After Effects, Premiere Pro, Blender, Spline, HTML, CSS

EDUCATION

B.Tech, Digital Techniques for Design & Planning (DTDP)

Aug 2020 – Jul 2024

Jawaharlal Nehru Architecture and Fine Arts University (JNAFAU), Hyderabad

- Major in Digital Design, UI/UX Design, Interaction Design, 3D Animation and Visual Communication.

CERTIFICATIONS

- Executive Post Graduate Certification in UI/UX Design with Generative AI & Agentic AI, Intellipaat (in collaboration with IIT Roorkee)
- UX Design Certification, DesignGuru (affiliated with JNAFAU)
